

(update: Dec. 3)

<b>7- Dec-2018</b>	
12:10	3-Minute Presentation - <b>Mr. Toda Keisuke</b> , Okayama Prefectural University "Red rice proanthocyanidin inhibits leukotriene B4 synthesis and has a preventive effect on psoriasis"
12:15	3-Minute Presentation - <b>Mr. Yu Fung Yau</b> , The University of Hong Kong "Effects of pre- and probiotics on fatty acid metabolism on gut-liver-brain axis of high fat diet-fed mice"
12:20	3-Minute Presentation - <b>Mr. Zhong Zhao</b> , The University of Hong Kong "The Study of Pesticide Waste Recycle in rural area of northwest China"
12:25	3-Minute Presentation - <b>Ms Hui Xu</b> , The University of Hong Kong "Neuroprotective effect of pinosylvic acid against oxygen and glucose deprivation/reperfusion damages in PC12 cells through inducing PINK1/Parkin mediated mitophagy"
12:30	3-Minute Presentation - <b>Ms Kwun Kwan Lo</b> , The University of Hong Kong "Zearalenone promote colon cancer cell proliferation via GPER"

<b>8- Dec-2018</b>	
11:30	3-Minute Presentation - <b>Ms Shuning Zhong</b> , Jilin University "Transformation and utilization of components of ginseng in Changbai Mountain areas"
11:35	3-Minute Presentation - <b>Ms Juan Bai</b> , Jilin University "Biomimetic sensors based on metal-organic frameworks and its application in food analysis"
11:40	3-Minute Presentation - <b>Ms Xinyue Ma</b> , Jilin University "Structure-switching aptamer application in sensitive biosensor based on FRET for antibiotics detection"
11:45	3-Minute Presentation - <b>Professor Hui Huang</b> , Jilin University "Application of fluorescence sensing technology based on conversion of quinone and phenol in food analysis"
11:50	3-Minute Presentation - <b>Dr. Xiaoqian Hu</b> , Shanghai Ocean University "Aging promotes glycometabolism disorder caused by dietary advanced glycation end products"
