

### **Oral presentations**

Talks are scheduled in 20-minute times slots (including discussion). Presenters are recommended to limit the presentation to 17 minutes in order to allow ample time for questions from the audience. The schedule will be strictly enforced to facilitate movement between sessions.

Computers running Windows 10 and Microsoft Office 2016 will be available at each presentation room. Speakers are requested to load their presentation files (either in .pptx or .pdf) to the technicians at the registration counter AT LEAST 3 hours prior the start of your presentation session. Please rename your presentation files as: <presenting date>\_<session no.>\_<name>.pptx or .pdf (e.g. 20190611\_S1\_GeorgeERICSSON.pptx).

### **Poster presentations**

Each presenter will be allocated a poster space of 140cm × 86cm (height × width). Velcro strips will be provided for poster mounting. Presenters are highly encouraged to man their poster during the official poster presentation periods and breaks between sessions.
