

Molecular & Cell Biology
Research Symposium 2023

Manipulating Cells through Synthetic Biology

Date: June 5th, 2023

Time: 9:55am - 6:05pm

Venue: Meng Wah Complex LG1/F - MWT1

~ All are welcome ~

* Attendees are strongly encouraged to bring their own cup to help reduce waste generation *

Program

09:55 - 10:00

10:00 - 11:00

11:00 - 12:00

12:00 - 13:30

13:30 - 15:30

15:30 - 15:45

15:45 - 16:15

16:15 - 17:15

17:15 - 17:45

17:45 - 18:00

18:00 - 18:05

Opening message

Keynote Presentation 1

Optogenetic interrogation of developmental
Erk signaling

Speaker: Dr. Heath E. Johnson

Postdoctoral Fellow Presentation

Lunch Break

Postgraduate Student Presentation

3Mins Presentation

Tea Break

Keynote Presentation 2

Enabling platforms for studying and engineering
biological complexity

Speaker: Dr. Alan S.L. Wong

Alumni Sharing

Dr. Colin C.L. Luk (isoFoodtrace)

Prize Presentation

Closing Remarks

Keynote speakers

Dr. Heath E. Johnson

Dr. Alan S.L. Wong

Dr. Colin C.L. Luk
